

COUNTY ROAD AND EQUIPMENT REPORT

APRIL 2023

Crews are taking advantage of every minute available to grade the roads from end to end. We spot blade through the winter to prevent the roads from completely falling out. They are pulling the ditches and thoroughly digging out potholes. Keeping the roads graded has been a challenge having 12" of rain over normal during the first quarter of the year.

The federal grant funded project on Half Moon Road is set up and ready for the pavement contractor. The winner of the bid was Roger's Group.

Asphalt patch work is still in progress and should be completed within the next few days. CK Asphalt was the bid winner. They are laying the patches with a lay-down machine for less than we can purchase the hot-mix and roll it out ourselves.

Crews have started mowing. We still have some brush on right-of-ways from the recent storms and work continues to get all that cleaned up.

This month and next month will be spent focusing on the basics to recover from an unusually tough winter and early spring... Grading/mowing/ditching/patching.
